

## Design a Mission Patch for the DESTINED FOR MARS Mission!

Space missions often come along with cool, unique mission patches that get worn by those involved. These patches usually have the names of those flying on the mission, along with some symbolic artwork. If the Destined for Mars mission had a patch, what do you think it would look like?

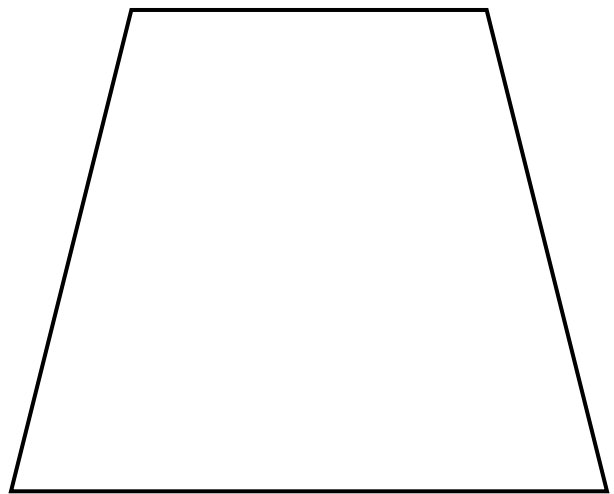

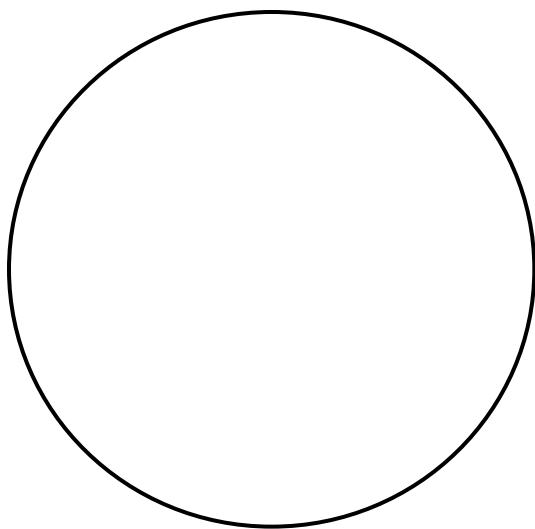

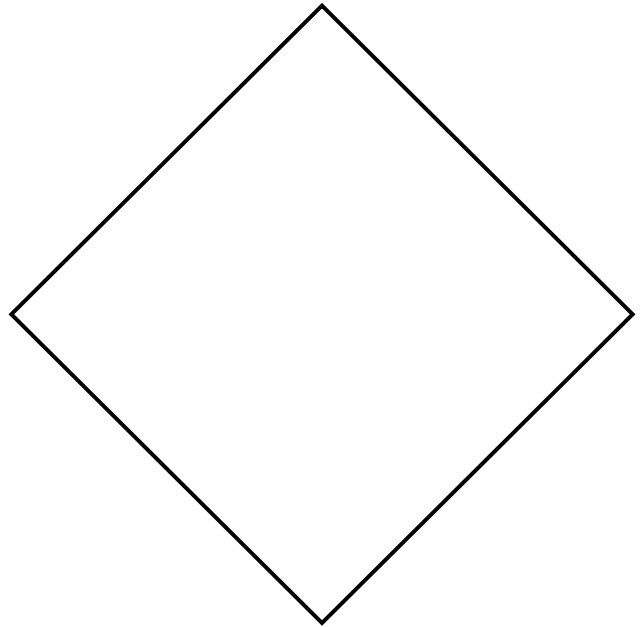

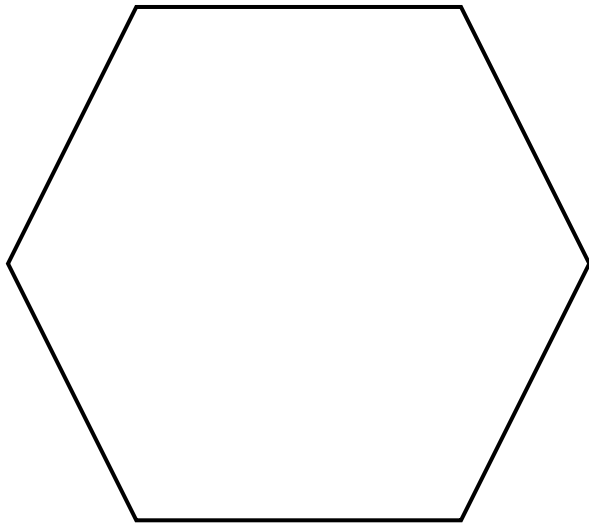

Here are some examples from NASA:

## Now, it's your time to design!

As a reminder, the members of the Destined for Mars mission are: *Matsuo Tomoki (Japan)*, *Najma Odera (Kenya)*, *Esteban Castillo (Peru)*, *Miranda Regent (U.S.A.)*, *Anna Koubek (Austria)*, and *Rahim Mahmood (Pakistan)*. Their spaceplane is called *Ambassador*.

Feel free to use one of the shapes below or come up with your own!

**Here is a blank page if you want to draw your own shape or make the design larger!**
